Subject: City of Walnut--Radio Towers

Hi Chuck,

See our response below.

1. **We briefly touched on the subject of Salem's intentions as they relate to the future of this project; can you provide the City a status on the radio tower project?**

Our radio tower project is currently "on hold" as we evaluate all possible options for use of the property. We have not determined whether to proceed or abandon the project at this time.

2. **There was a brief discussion on the future of the land, can you provide what Salem's direction is as it relates to the land?**

We continue to evaluate all options pertaining to the land, including retaining all of the land for our proposed radio tower project, retaining a portion of the land for towers and selling the remainder, or selling the entire parcel.

3. **Is Salem moving forward with the EIR as prescribed by L.A. County upon review of Salem's permit application for the radio towers?**

Our progress on an EIR is also "on hold" as we continue to evaluate all options pertaining to this project. We have not determined whether to proceed with the EIR or abandon the project at this time.

Let me know if you have further questions. Thank you.
